My dear Mr. van Kerkwijk:

I have just received the Year Book of the Royal Numismatic Society of the Netherlands and note that I have been elected a Corresponding Member of the Society. I, herewith, desire to thank both you and Mr. Schulman, who, I presume, caused my election, for this honour; and please convey to the Society my esteemed regards.

I beg to thank you again for the courtesy shown Mrs. Wood and myself on our hurried visit to the Royal Cabinet last summer.

Very truly yours,

Director, Kgl. Kabinet van Muntensenz
The Hague, Netherlands.

Dear Sir:

Have you any nice examples of silver wire money known as larins, that circulated from Arabia through Persia, India and Ceylon two hundred to four hundred years ago? I am very anxious to get photographs of the straight pieces, that is, bent over once but not curved, in the shape of a fish hook. If you have any and have the facilities for photographing them I would appreciate it. We would naturally pay for this work. You may remember I was in to see you in 1920.

Very truly yours,
